

# INDEX

## 1 Work schedule

- 1.1 Term 1
  - 1.1.1 Skills
  - 1.1.2 Mechanics
  - 1.1.3 Matter and materials
  - 1.1.4 Mechanics
- 1.2 Term 2
  - 1.2.1 Mechanics
  - 1.2.2 Waves, sound and light
  - 1.2.3 Chemical change
- 1.3 Term 3
  - 1.3.1 Electricity and magnetism
  - 1.3.2 Matter and materials (Physics focus)
  - 1.3.3 Chemical change
  - 1.3.4 Chemical systems
- 1.4 Term 4
  - 1.4.1 Physics revision
  - 1.4.2 Chemistry revision
- 1.5 Weighting of topics – teaching time
- 1.6 Calendar with work schedule

## 2 Assessment

- 2.1 Formal assessment
  - 2.1.1 Practical work
  - 2.1.2 Control tests and examination
- 2.2 Informal assessment
- 2.3 Weighting of assessment and year marks
- 2.4 Recording and reporting
- 2.5 Moderation
- 2.6 Processing of marks
- 2.7 Scientific report

## 3 Lesson plans

- Term 1
  - Lesson plan 1 – 3 (Physics – in Physics Preparation File)
  - Lesson plan 4 – 5 (Chemistry)
  - Lesson plan 6 (Physics – in Physics Preparation File)
- Term 2
  - Lesson plan 7 – 8 (Physics – in Physics Preparation File)
  - Lesson plan 9 – 11 (Chemistry)
- Term 3
  - Lesson plan 12 – 15 (Physics – in Physics Preparation File)
  - Lesson plan 16 – 17 (Chemistry)

## 4 Reports

- 4.1 Mark sheet for Physical Sciences
- 4.2 Mark sheet for school
- 4.3 Mark distribution
- 4.4 School moderation
- 4.5 Cluster moderation
- 4.6 Unfinished portfolio tasks

## 5 Masters for transparencies

- 5.1 Knowledge area: Matter and materials
- 5.2 Knowledge area: Chemical change
- 5.3 Knowledge area: Chemical systems

## 6 Assessment tasks

- 6.1 Formal assessment
- 6.2 Informal assessment
- 6.3 Rubric

## 7 Portfolio: Learner

- 7.1 Cover page
- 7.2 Index
- 7.3 Statement
- 7.4 Mark sheet and moderation
- 7.5 Term 1
- 7.6 Term 2
- 7.7 Term 3

## 8 Portfolio: Teacher

- 8.1 Mark sheet
- 8.2 Unfinished portfolio tasks
- 8.3 School and cluster moderation
- 8.4 Term 1
- 8.5 Term 2
- 8.6 Term 3

## 9 CAPS document

## 10 Examination guidelines

Experiments do not have an investigative question or a hypothesis. However, throughout the Doc Scientia textbooks and workbooks, we ask for an investigative question and a hypothesis. This is done so learners can practise the formulation thereof since it is usually examined in tests and examinations.

During the explanations of differences in physical properties like boiling points, etc. it should be noted that energy is used to break covalent bonds, but energy is used to overcome intermolecular forces.
